RECYCLING STATION EXAMPLES

- Economic bin that can be used as a single unit or forming recycling stations (joining kit included).
- Two capacities available:
    - 45L (square shape).
    - 90L (rectangular shape).
- Smart combination of metal body and plastic lid available in seven colors (grey, green, yellow, blue, brown, white and black).
- Body available in black and white.
- Includes a set of adhesives with multiple combinable options of colors and waste symbols (Nordic standard) to be placed on the lid to identify the type of waste to be deposited.
- The bag is secured in place by the removable lid covering.
- With rubber feet.
- Can be fixed to the ground using 2 M6 expanding bolts (not included).
- Accessories: frontal adhesives, and bolts to fix the bin to the ground.
- Body made of 1 mm cold rolled steel plates which have been hot dip galvanized, with thermo-heating polyester powder coated finish.
- Lid made of plastic material (Polypropylene) with protection against the UV radiation.
- Suitable to be used indoor and outdoor under normal weather conditions. In case of extreme weather conditions, such as high salinity, temperature or humidity, an additional special treatment can be included. Check extra cost and MOQ.
- Guaranteed reliability: this product has satisfactorily exceeded functionality and endurance tests under real environmental and usage conditions.

To process your order, all the codes that create the detailed reference must be chosen.
