Dual-sided informative board – Island

Single-sided informative board – Wall

Wheels

Liquid retention trays

Waste adhesive on back side

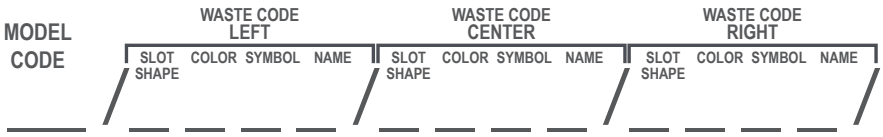

- High-capacity multi-waste bin. Available for 3, 4 or 5 waste.
- Available with or without wheels. The standard version does not include wheels. The optional version with wheels (accessory) is an ideal solution for facilities such as: Sports Complexes, Multi-purpose spaces/Arenas, Exhibition Centres, etc., where the bins need to be mobile so that their location can be adapted (both indoors and outdoors).
- Suitable for collecting both solid and liquid waste, as well as stacked cups. Two configurations available:
  - All solid waste.
  - Solid waste + liquids and stacked cups (for cups with a maximum diameter of Ø 90mm).
- Capacities: 300L (3 waste), 400L (4 waste), 500L (5 waste):
  - Solid waste: 100L per waste.
  - Liquid waste: 20L.
  - Stacked cups: approximately 250–500 cups (depending on cup type).
- Four different options of sorting slots are available, with several shapes and colors to be chosen.
- Separate compartments for each residue with a front door system for easy emptying.
- Doors with restricted access by locks.
- Waste identification by vinyl adhesive on the front door (name of waste, colour, and symbol).
- Collection system:
  - Solid waste and stacked cups: Sliding inner ring with an elastic band to hold the bag in place, which can be horizontally fold out by guides.
  - Optional (accessory): Metal inner liner with elastic band to keep the bag in place.
  - Liquids: Plastic drum.
- Optional accessories:
  - Dual-sided informative board – Island.
  - Single-sided informative board – Wall.
  - Waste identification vinyl adhesive on the back side.
  - Wheels (heavy-duty suitable for outdoor use). All are swivel wheels with brakes.
  - Liquid retention tray (available only for versions with inner rings collection system).
  - Metal inner liner with elastic band to keep the bag in place.
  - Floor anchoring kit (4 units).
- Body and doors made from 1,5 mm hot dip galvanized.
- Internal reinforcements, information panel and wheel supports made from hot-dip galvanised steel, with 2mm and 3mm thickness.
- Finished with thermosetting polyester powder coating.
- Suitable to be used indoor and outdoor under normal weather conditions. In case of extreme weather conditions, such as high salinity, temperature or humidity, an additional special treatment can be included. Check extra cost and MOQ.
- Guaranteed reliability: this product has satisfactorily exceeded functionality and endurance tests under real environmental and usage conditions.
