Recycling Station 3 types of waste

DETAILS

Detail of self-closing flap

Detail of pedal usage

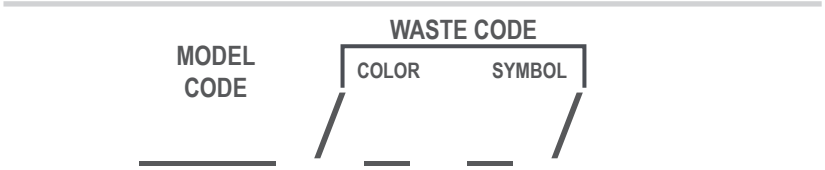

Detail of side view

- Bin with slopping top and an excellent value for money which can be used by itself or forming recycling stations with bins belonging to the same version.
- Self-extinguishing certified
- Capacity of 60 and 100 litres
- Collection systems:
    - Hinged inner ring bag holder joined to the body of the bin
    - Metal inner liner with elastic band to keep the bag in place.
- Available lids:
    - 60 litres version: open, self-closing flap and flap operated by a foot pedal
    - 100 litres version: open and self-closing flap
- Hinged lid with waste identification included.
- Rubber feet included
- Can be fixed to the ground with 2 M6 expanding bolts (not included).
- Made of 1 and 2 mm cold rolled steel plates which have been hot dip galvanized.
- It includes a thermo-heating polyester powder coated finish
- Hinges and inner ring bag holder made of zinc plated steel.
- Easy emptying system: our bins must be safe, ergonomic and clean. This bin has been designed and produced with an ergonomic and efficient emptying system which guarantees the extraction of the bag without risk of ripping.
- Plastic bags: this bin is compatible with standard bags available in the market. However, Cervic Environment have developed "Slim-fit" bags (tailor-made for our bins) which improve the performance and the aesthetic of the bins (only capacity 60 litres).
- Accessories: frontal waste adhesives and ground anchor bolts kit
- Suitable to be used indoor and outdoor under normal weather conditions. In case of extreme weather conditions, such as high salinity, temperature or humidity, an additional special treatment can be included. Check extra cost and MOQ.
- Guaranteed reliability: this product has satisfactorily exceeded functionality and endurance tests under real environmental and usage conditions.

To process your order, all the codes that create the detailed reference must be chosen.
