DETAIL

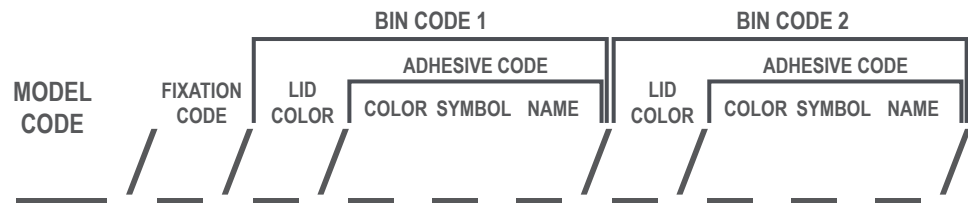

Eco-Lid
Adhesive

- Economical recycling station for 2, 3 or 4 residues
 - Capacity of each bin: 42 and 95 litres
 - Available for 2, 3 or 4 residues.
 - Collection system: the lid holds the bag and hides the unsightly excess of it.
 - A translucent lid is included in the version of 95 litres.
 - Waste identification included on the lid by color, name and icon.
 - Available poles:
 - 1 meter pole
 - 2 meters with an advertisement board for posters of 500 x 700 mm (poster not included)
 - Available anchoring systems: triangular steel plate and a base to be buried in sand or the ground
 - The triangular steel plate base can be fixed to the ground with 3 M8 expanding bolts (included).
 - Bins made of high density polyethylene (HDPE) (plastic) with protection against the UV radiation.
 - Poles are made of 1,5 mm and 3 mm cold rolled steel plates which have been hot dip galvanized. Tubes of 2 mm cold rolled steel plates which have been hot dip galvanized and a steel plate of 10 mm.
 - Poles include a thermo-heating polyester powder coated finish
 - The base is protected by a primer rich in zinc
 - Joint elements made of Stainless Steel.
 - Suitable to be used outdoor under normal weather conditions. In case of extreme weather conditions, such as high salinity, temperature or humidity, an additional special treatment can be included. Check extra cost and MOQ.
 - Guaranteed reliability: this product has satisfactorily exceeded functionality and endurance tests under real environmental and usage conditions.
-
