Joca-Rubæk
PART OF Sulo GROUP

DESCRIPTION

Nexus Style is a customisable internal litter and recycling bin constructed from an Armortec® coated steel body and Vandalex® aluminium door extrusion.

Available in 85L and 170L capacities in several waste stream configurations. With a choice of either 80L or 40L galvanised steel liner(s) or 85L or 40L stainless steel sack retention system(s).

The aim of the bin is to satisfy the demand for a premium finish internal litter and recycling bin, that can be personalised to suit modern interiors.

AVAILABLE MODELS (EXAMPLES)

85L

85L Duo (40/40L)

170L Duo (85/85L)

170L Trio (85/40/40L)

170L Quad (40/40/40/40L)

FEATURES & BENEFITS

Manufactured from 100% Recyclable Materials.
Environmentally friendly/sustainable product.

Minimal and stylish aesthetics.
Premium appearance is suitable in any environment.

Armortec coated steel body.
Minimal maintenance and long product life.

Single-sided unit.
Reducing footprint space as can be placed against the wall.

Hinged Vandalex door.
Minimal maintenance and long product life.

Smooth curved door.
Provides a large personalisation / graphics area.

5 Standard vinyl door wraps.
Ability to customise to compliment interior décors.

Magnetic door securing strip.
Quick and easy operation.

Open top design.
Ease of use.

Dedicated aperture panels and divider kit.
Reduces risk of cross contamination and provides flexibility of waste stream configuration.

Standard 'Recycle Now' graphics.
Highlights individual waste streams to minimise potential contamination.

85L and 170L capacity.
To suit customers capacity requirements.

Sack retention.
Quick and easy emptying with minimal lifting for reduced manual handling.

Steel liner.
Easy to empty and protects the operator from sharp objects.

Liner protection runners.
Minimises noise when operating the liner and protects the bin from scratches.

OPTIONAL FEATURES & BENEFITS

Rear mounted sign kit.
Maximised signage help identify waste streams and minimises contamination.

Keyed cam lock kit (standard triangular key).
Restrict access only to the operative.

Choice of personalisation options.
Customised graphics and door vinyls are available (anything not offered as standard). Available for the door or full body.

Drip tray (for use with sack retention).
Designed to catch any liquid or waste from damaged, leaking sacks and helps prevent spillages and pooling around the base of the bin.
